

## LIST OF CONTENTS

Foreword	6
Preface	7
List of Contents	9
List of Authors	15
List of Participants	19
<b>Consumer and World Trends</b>	
Consumers and Food Choice: Quality, Nutrition and Genes <i>L.M.M. Tijskens, I. Ostan, B. Poljšak and M. Simčič</i>	29
Fresh Produce Valuation in Portuguese Traditional Food Markets: Consumer Perspectives <i>J. Sampaio, L.M. Cunha, A.P. Moura and A. Rocha</i>	39
The Sensory Profiles of Kiwifruit Hybrids Involving <i>Actinidia eriantha</i> <i>J. Gamble, L. Axten, M. Wohlers, I. Hallett and A. Seal</i>	47
<b>Health and Nutrition</b>	
The Quality and Antioxidant Capacity during Storage of Sweet Cherries Are Affected by Ripening Stage at Harvest <i>D. Valero, F. Guillén, D. Martínez-Romero, S. Castillo, P.J. Zapata, H.M. Díaz-Mula and M. Serrano</i>	57
<b>Supply Chains</b>	
Postharvest Science and Value Chain Management: Using the Virtuous Value Cycle to Define Common Ground <i>R. Collins</i>	67
Linking Small Horticultural Producers with Markets: Indian Experiences and Lessons <i>S. Singh</i>	75
Toward Developing a Sea-Freight Supply Chain for Delivering Pakistani Mangoes to European Supermarket: a Private-Public Sector Model <i>A.U. Malik, O. Hafeez, P. Johnson, J.A. Campbell, M. Amin, M. Saeed, M.S. Mazhar, S. Schouten and J. Adeel</i>	83
Opportunities for Innovation in Specialised Fruit and Vegetable Retailing: Results from an Auckland Greengrocer Survey <i>C. Fischer</i>	91
Ready to Eat Nectarines - Assuring Quality in the Chain <i>L.M.M. Tijskens, A. Rizzolo, M. Vanoli, P. Eccher Zerbini, S. Jacob and R.E. Schouten</i>	99
Conditioning 'Anjou' Pears to Meet Consumer Quality Demands <i>E.M. Kupferman, K. Gallardo, C. Sater and A. Colonna</i>	105

Quality Management of Fresh Fruit and Vegetables at a Supermarket Chain in Japan <i>T. Akinaga, S. Kawasaki and H. Shima</i>	111
Managing Mango Fruit Quality through the Supply Chain: a Pakistan Case Study <i>M.S. Mazhar, R. Collins, J.A. Campbell, A.U. Malik, P. Johnson, A. Dunne, X. Sun and M. Amin</i>	117
Systems Approach to Reducing Waste in the Fresh Produce Supply Chain <i>I. Ben-Tzur and G. Ward</i>	125
The Role of Quality Assessments as a Decision Making Tool in the Imported Fruit (Sea Freight) Value Chain <i>R.M. Worsfold, M. Ciccioni and A.-M. Arts</i>	137
Supply Chain Workshop: Summary of Key Success Factors for Horticultural Supply Chains and the Supply Chain of the Future <i>G. McEvilly and C. Fischer</i>	145
<b>Preharvest Factors and Maturity and Physiology</b>	
Intermittent Warming Interactions on the Ripening of Green Mature Tomatoes <i>P. Biswas, A.R. East, E.W. Hewett and J.A. Heyes</i>	153
Preharvest Solar Heat Treatment for Summer Basil ( <i>Ocimum basilicum</i> ) Affects Decay during Shipment and Shelf Life <i>D. Kenigsbuch, D. Chalupowicz, Z. Aharon, D. Maurer, A. Ovadia and N. Aharoni</i>	161
Kiwifruit Respiration Rates, Storage Temperatures and Harvest Maturity <i>J.A. Heyes, D.J. Tanner and A.R. East</i>	167
How to Predict the Harvest Date of Tropical Fruit: from Simple Methods to Complex Models <i>M. Lechaudel, G. Damour, P. Fournier, J. Joas and M. Jahiel</i>	175
Improvement of 'Crimson Seedless' Grape Colour by Abscisic Acid Treatment <i>S. Lurie, A. Lichter, T. Kaplunov, Y. Zutahy, M. Oren-Shamie and R. Ovadia</i>	183
Salicylic Acid Prolongs Shelf Life and Improves Quality of 'Maria Delicia' Peach Fruit <i>N.A. Abbasi, S. Hafeez and M.J. Tareen</i>	191
Postharvest Performance of Two <i>Cyrtanthus</i> Genotypes (PM12 and NR7) <i>M. Debenham, A. McLachlan and J. Eason</i>	199
Understanding Links between Preharvest Conditions and Postharvest Management in Production Chains Is One of the Keys to Ensuring Fruit Quality in Commercial Networks <i>J. Joas, C. Desvignes, E. Vulcain and M. Lechaudel</i>	207
Spatially Resolved Monitoring of Fruit Development in an Apple Orchard by Means of Sensor Fusion <i>R. Gebbers and M. Zude</i>	217

Comparison of 'Cripps Pink' Apple Bruising <i>B. Abbott, P. Holford and J.B. Golding</i>	223
Quality of Starfruit Harvested at Advanced Maturity Stage <i>M. Pauziah, S.A. Tarmizi, P. Mohd Salleh and M. Norhayati</i>	230
European Pear Softening as Influenced by Picking Date, Storage Time and Temperature <i>J.W. Palmer, R. Diack, J.W. Johnston and S.M. Seymour</i>	237
Growth Acceleration and Increased Out Plant Survival of Ontario and Ohio Grown Tree Liners <i>H.M. Mathers, L.T. Case, D.K. Struve, D. Rivera, S.E. Svenson and R. Zondag</i>	243
Changes in Sugar and Total Oxalic Acid Contents in Different Sections of Bamboo Shoots Harvested at Different Maturity <i>M. Thammawong, D. Nei, P. Roy, N. Nakamura, Y. Inoue, H. Hamachi, S. Nonaka and T. Shiina</i>	253
Influence of Maturity Stage at Harvest on Essential Oil Composition of Dill Leaves ( <i>Anethum graveolens</i> L.) and of Postharvest Treatments on Freshness of Fresh-Cut Dill <i>G. Tibaldi, E. Fontana and S. Nicola</i>	261
<b>Non-Destructive Methods for Determining Quality</b>	
Assessing the Harvest Maturity of Brazilian Mangoes <i>T. Pereira, L.M.M. Tijskens, M. Vanoli, A. Rizzolo, P. Eccher Zerbini, A. Torricelli, L. Spinelli and H. Filgueiras</i>	269
Non-Invasive Sensing of Fruit Development in Banana and Papaya by Means of a Spectroscopic Approach <i>M. Zude, J. Sasse and H. Schallnus</i>	277
Application of Compression Force in Monitoring Firmness of 'Hayward' Kiwifruit ( <i>Actinidia deliciosa</i> ) <i>J. Feng, B.R. Mackay, K.M. Maguire and P.B. Jeffery</i>	283
Evaluation of Differential Energy X-Ray Analysis for Non-Destructive Measurement of 'Hayward' Kiwifruit ( <i>Actinidia deliciosa</i> ) Attributes <i>J. Feng, B.R. Mackay, K.M. Maguire, T. Tran, M. Bartle and G. Wallace</i>	291
<b>Ethylene and 1-MCP</b>	
Managing Physiological Processes in Fruits and Vegetables with Inhibitors of Ethylene Biosynthesis and Perception <i>C.B. Watkins</i>	301
Non-Volatile Derivative of 1-MCP Prevents Ethylene Responses in Ornamentals <i>E.C. Sisler, L. Seglie, H. Mibus and M. Serek</i>	311
A Comparison of Various Systems for Long Term Storage of 'Hass' Avocado Fruit <i>J.R. Marques, P.J. Hofman, B.A. Stubbings, J.A. Campbell and L.R. Barker</i>	317

Characteristics of Ethylene Producing ‘Hort16A’ Kiwifruit ( <i>Actinidia chinensis</i> Planch. var. <i>chinensis</i> ) <i>J. Feng, A. White, A.B. Woolf, J. Adams, C. Kingston, A. McGlone, S. Olsson, M. Peiley and J. Bowen</i>	325
Ethylene Ripening of Pears by Unconventional Means: Use of an Ethylene Release Canister™ within Covered Pallets <i>K.R. Sharrock, C.J. Clark, R.F. Henzell and D.A. Barker</i>	331
Ethylene Ripening of Pears by Unconventional Means: Use of Experimental Thimble-Sized Ethylene Capsules inside Cartons and Clamshells <i>K.R. Sharrock and R.F. Henzell</i>	339
Response of Papaya (‘Eksotika’) Fruit to Different 1-Methylcyclopropene Concentrations <i>Z.M. Ali and S.M. Mamat</i>	347
Additional Effect of 1-MCP and Modified Atmosphere Packaging (MAP) on the Storage Life of Banana Fruit <i>S. Ketsa</i>	353
Effect of Maturity and 1-MCP on Physiology of Tomato Slices <i>D.H. Pangaribuan, D.E. Irving and T.J. O’Hare</i>	361
<b>Using “Omics” to Understand Postharvest Biology</b>	
Postharvest Metabolomics <i>B.M. Nicolai, R. Pedreschi, A. Geeraerd, T. Vandendriessche and M.L.A.T.M. Hertog</i>	369
Proteomic Analysis Identifies Proteases Upregulated during Petunia Corolla Senescence <i>M.L. Jones, L.J. Chapin and S. Bai</i>	377
A Viral Induced Gene Silencing Approach to Study Galactose Loss in Cell Walls during Flower Development and Senescence <i>D.A. Hunter, C.Z. Jiang, J.M. Labavitch, K. Morris, M.S. Reid and E.M. O’Donoghue</i>	387
<b>Market Access and Disinfestation: Quarantine and Pathology</b>	
Using Food-Safe Ingredients to Optimize the Efficacy of Oil-in-Water Emulsions of Essential Oils for Control of Waxy Insects <i>R.G. Hollingsworth and R.M. Hamnett</i>	399
Studies and Commercial Application of VAPORPH3OS Phosphine Fumigant for Disinfestation of Exported Fruits and Vegetables in South America <i>P. Horn, F. Horn, J. Tumaming and M. Rogers</i>	407
Improved Sulfur Dioxide Fumigation of Fresh Longan Using a Vertical Forced-Air Technique <i>J. Phimphimol, J. Varith, S. Jaturonglumert, P. Chommuang and K. Kubnop</i>	415

Electrochemical Biosensor for a Simple and Rapid Detection of Canker ( <i>Xanthomonas axonopodis</i> pv. <i>citri</i> ) in Pomelo for Export <i>P. Chaumpluk, P. Chairasart and E. Tamiya</i>	423
Effects of <i>Colletotrichum gloeosporioides</i> and <i>Monilinia fructicola</i> on Quality of Red Flesh Dragon Fruit ( <i>Hylocereus polyrhizus</i> ) <i>Y. Awang, M.A.A. Ghani and K. Sijam</i>	431
A Systems Approach to Mitigate Oriental Fruit Fly Risk in 'Sharwil' Avocados Exported from Hawaii <i>P.A. Follett and R.I. Vargas</i>	439
Quality Variability of Strawberries in the Southern North Island of New Zealand <i>A. Jabbar, A.R. East and C. Jenkins</i>	447
Hot Water Drenches for Control of Soft Rots on Washed Kumara (Sweet Potato) <i>D.W. Brash, L.-H. Cheah, D.I. Hedderley, S. Olsson and A.B. Woolf</i>	455
Recent Trends in Australasian and World Horticultural Market Access Research and Development <i>A.B. Woolf, J. Armstrong, L. Jamieson and J.B. Golding</i>	463
<b>Packaging and Storage</b>	
Postharvest Practices for Managing the Quality of Longans and Rambutans <i>M.M. Wall, K.A. Nishijima, L.M. Keith and M.A. Nagao</i>	473
Product Allocation of Greenhouse Gases Produced by Coolstorage Facilities <i>A.R. East, R.J. Love, A.S. Hume and S.J. McLaren</i>	481
Responses of Feijoa Fruit 'Unique' to Controlled Atmosphere Storage <i>A.S. Al-Harthy, A.R. East, E.W. Hewett, J.A. Heyes and A.J. Mawson</i>	489
Postharvest Cracking and Testa Removal Methods for <i>Canarium indicum</i> Nuts in the Pacific <i>H.M. Wallace, M. Poienou, B. Randall and J. Moxon</i>	499
Relation of Water Loss to Compressive and Tensile Texture Attributes of Three Chilli Cultivars <i>R. Jansasithorn, A.R. East, E.W. Hewett, A.J. Mawson and J.A. Heyes</i>	503
Quality of Fresh-Cut Apple Slices Is Modulated by Short Term Post-Controlled Atmosphere Air Storage of Whole Fruit <i>P.M.A. Toivonen, C.R. Hampson, P.A. Wiersma, B. Lannard and Changwen Lu</i>	511
Evaluation of High Electric Field Chamber for Shelf Life Extension of Food and Agricultural Commodities <i>T. Shiina, D. Nei, N. Nakamura and M. Thammawong</i>	517
Postharvest Storage Temperatures Impact Significantly on Apricot Fruit Quality <i>J. Stanley, R. Marshall, J. Ogwaro, R. Feng, M. Wohlers and A.B. Woolf</i>	525

Moisture Content and Strength of Corrugated Cardboard Exposed to a Nano-Sized Mist <i>T. Uchino, F. Tanaka, D. Hamanaka and Y. Nakano</i>	533
<b>Fresh Cut and Safety</b>	
Surface Adhesion of <i>Salmonella enterica</i> and <i>Staphylococcus aureus</i> under Fluctuating Temperatures <i>D. Hamanaka, K. Morimatsu, F. Tanaka and T. Uchino</i>	541
Fluorescence Biosensor for a Simple and Rapid Detection of <i>Escherichia coli</i> in Fresh-Cut Fruits <i>P. Chaumpluk and P. Chaiprasart</i>	547
